

Install GSE Smart IPTV Pro on Android

Follow these steps to download GSE Smart IPTV Pro and log in using the details supplied by your IPTV provider.

1. Download GSE Smart IPTV Pro

1. Open the official Google Play link:

```
https://play.google.com/store/apps/details?
id=com.gsetech.smartiptv2&gl=ZA
```

1. Confirm the app is **GSE SMART IPTV PRO** by **droidvision**.
2. Select **Buy** or **Install**, complete the purchase if required, then select **Open**.

2. Add your IPTV account

1. Allow any permissions requested by the app.
2. Open the **three-line menu**.
3. Select **Xtream-Codes API**.
4. Select the **+** button to add a new account.
5. Enter the details supplied by your IPTV provider:

```
Playlist Name: My IPTV
Server URL: http://your-server-address.com:port
Username: YOUR USERNAME
Password: YOUR PASSWORD
```

1. Select **Add, Update** or **Login**.
2. Wait for the channels, movies, series and TV guide to load.
3. Open the new playlist and select **LIVE** or **VOD**.

Make sure the server URL includes the correct `http://` or `https://` and port number, with no extra spaces in any login field.
