

Install MyIPTV Player on Windows

Follow these steps to install MyIPTV Player and add the M3U Plus and EPG URLs supplied by your IPTV provider.

1. Download and install

Official Microsoft Store link:

<https://apps.microsoft.com/detail/9pjj2nmbf0tr?hl=en-US&gl=US>

1. Open the Microsoft Store link above.
2. Select **Get** or **Install**.
3. Wait for the installation to finish, then select **Open**.

2. Add your playlist and TV guide

1. Open **Settings** inside MyIPTV Player.
2. Select **Add new playlist and EPG source**.
3. Under **Remote channel list**, enter any name for the playlist.
4. Paste the complete **M3U Plus URL** supplied by your IPTV provider.
5. Select **Add remote list**.
6. Under **Program guide**, enter any name for the TV guide.
7. Paste the complete **EPG URL** supplied by your IPTV provider.
8. Select **Add EPG source**.

```
Playlist Name: My IPTV
M3U Plus URL: YOUR FULL M3U PLUS URL
EPG Name: My IPTV Guide
EPG URL: YOUR FULL EPG URL
```

3. Load the channels

1. Select the **Back** arrow to return to Settings.
2. Under **Select channel playlist**, choose the playlist you created and select **Refresh**.
3. Under **Select EPG source**, choose the guide you created and select **Refresh**.
4. Wait for the playlist and TV guide to finish loading.
5. Open **Channels**, choose a category, and select a channel to start watching.

Large playlists can take a while to load the first time. Make sure both URLs are complete and contain no extra spaces.
